

Patient Safety Incident Response Framework

Training and support solutions

**We would love to
help you**

Please feel free to contact us to discuss further
Paul.stretton@quantum-safety.com

Work with people

Work with true expertise

This is not a faceless training consultancy. You will be working closely with a subject matter expert every step of your journey.

“ {Paul} stands on the shoulders of giants but also challenges those same giants as to whether all their approaches are applicable in the context of complexity.”

It has been **wonderful collaborating with Paul** and we look forward to more conversations with him in the future.”

Philosophical Breakfast Club

PSIRF Training Options

All of our standard PSIRF courses meet the requirements set by NHS England and very well received by organisations.

We appreciate every organisation has different needs, so if our solutions don't quite fit your needs we can explore how we can adopt so you get the solution you need.

Systems approach to Patient Safety Incident Investigations

How do we “do” PSIRF?

Learn how to use the learning responses effectively as well as the safety principles that underpin them.

Patient, family and staff involvement in learning from Patient Safety Incidents

How will PSIRF feel?

How can our responses reduce compound harm, and help restore all people harmed after a patient safety incident?

Effective oversight

How can we know it's working?

How can leaders provide supportive oversight and assure standards within PSIRF?

PSIRF

Extra help...

Executive Board talks

Getting leaders to understand and buy in

Just & learning cultures

Using PSIRF as a catalyst for culture change in your organisation

Getting to the front

How can we make PSIRF part of what we do even for those that haven't been trained in depth?

Anything else?

What's the next step for you? Want to explore how we go from good to excellent? Let's explore what they looks like for you...
